LOUISVILLE, November 5, 1866.

Dr. E. Bunyoad Ligarniti.

Dear Sir—I am corry to learn that you contemplate leaving Louisville at the end of the present week. I carnestly wish that you contemplate leaving Louisville at the end of to remain here for a time longar.

Your sejourn among us Dr. Lighthill, will be long remembered by our people. It has been a blessing to many. You have treated me and a female member of my family with great success. You seem to me to understand, as by intuition, the character of a malady and its best remedy. You have had a multitude of patients in this city, and I have not seen or heard of one to whom you have hold out the promise of relief without rendering it. Your entire practice among us has been a belillant success, and I cucerfully recommend you to my friends and the public at large as a physician deserving the utmost confidence.

Hoping that you may live long to be a blessing to additional thousands of the afflicted, I am very truly yours.

New Orleans.

The New Orleans Bulletin says that all the business now done in that city by seventy thousand men could casily be done by twenty thousand. As a necessary consequence, the city abounds with unemployed and half-employed persons, and the incedinate competition for business is a great certification. cedinate competition for business is a great evil. For the year ending September 1st, 1800, the amount of imports and experts into and from the city was twice as large as for the year ending September 1st, 1860. Profits then were is greater than they are now. The growth of the city was regu-lar, healthy, and vigorous, resting entirely upon its commercial needs and its increase of wealth and population. Except for the war, bays the Bulletin, that growth would have continued, and New Or-leans would now have employment for a hundred thousand men and legitimate use for two hundred millions of

TARE AS A PREVENTIVE. The Reasons of its Superiority Over All Other Chill Remedies.

Cure is not only an anis-periodic, but acts upon the five size, so that in cases where persons are billious, as indicated by sallow complexions, loss of appetite, dec. remerally followed by chills an fuver, or in higher isdinates or in more exposes situations by continued or intermitting fever, the use of this tonic for a few days will extrary remove these symutoms, and show evidence of the complexion, and has increased appetite and a restored healthy section of the secretory orkans. This is really the great advantage that tonic possesses over the so-called tonics now in use, the best of which are but sail-periodics, and whilst they may here? the chill, they do not remove the cause of the disease, but leave the spatem in as cause of the disease, but leave the system in as bad or in a worse condition than when first ta-ken. The use of this medicine is therefore indi-cated in cases where persons are exposed to mina-matic influences, and is as valuable in warding off attacks of billious and other fevers as in cu-ring chills and fevers. By the use of chioriae or exvolve seld in the sleeping chambers, and a proser use of Wintessembia's Tomic Strup as indi-cated by the symptoms, a person may live and enjoy good health in the most malarrous districts.

GW It is said that Callsays Bark has a pecular-effect upon the liver and guards the system aguisat diseases by exposure and irregular dist. It is conceded that the great success of the won-derful PLASTATON BITTERS, which, previous to our late unhappy difficulties, was found in most Southern homes, was owing to the extract of Callsays bark which is contained as one of the principal ingredients. In confirmation of this we have heard one of our distinguished phys-cians remark that, whenever he full unwell from ordinary disection or stanospheric causes, he inva-riably retieved himself by PLASTATON BITTERS.
